

What is an Educational Success Consultation?

As part of our commitment to you, Calvary Chapel Academy has added an important new component to our admissions process: an Educational Success Consultation with the Principal, designed to actively engage and support you as parents in making wise educational decisions for your child. This will focus on your aspirations and goals for your child's development, both academic and spiritual.

We consider meeting with families like yours an important part of our ministry whether or not you decide to enroll at CCA. Our desire is for you to know that we value relationships and want to serve your family. Call our Principal, Mark Leckie, today to schedule your Educational Success Consultation at 585-398-2218.
